The Montserrat left here December 4 for Gautemala. She had on board Captain W. H. Fergusor, the man who brought over 500 Gilbert islanders on the brig Tabits, and whom sickness compelled to stay here, so that he escaped the fate of all on the brig, which foundered off the Mexican coast. The new owners of the Montserrat are the men who lately brought a load of islandprofit on the cargo.

Many New Railways.

Chicago, Ill., Dec. 21 —The statisties of railway construction during 1892 will be the subject of an article in to morrow's issue of the Railway Age. It shows that during the 12 months the total length of main track constructed in the United States was 4,062 miles, in fortythree of the states and territories. This is about 400 miles less than in 1891. The only states in which there was no track laid were Vermont, Rhode Island, Connecticut, Delaware and Nevada. The total railway mileage now in the United States is 179,663 miles. The states in which the greatest mileage was lid during the present year is as

A CLOUD OVER MEXICO

#### Rumor Says it May Burst at Almost Any Moment.

Laredo, Tex., Dec. 21.-The storm is coming, and when it breaks it will be over the republic of Mexico. Dispatches are rushing to and fro from the Mexican official to the United States officers on the frontier, and in the near future there will be a genuine revolution in Mexico. Information was received here to-day that General Estrada, stationed at Mier, about seventy-five miles down the Rio Grande, was missing from his post of duty, and it is thought he has joined the revolutionists, who are marching toward the interior of Mexico. This is another indication that the outlook is very bad for President Diaz.

It is impossible to gain any information from those high in authority ides, God and the state. There used as everyone is under the strictest orders not to make public the tele grams, but this much is known, that there was a battle on the 17th, on Mexican soil, near Guero, about 30 miles from the river, between Mexican troops and the revolutionists, with a victory for the latter. There were five soldiers killed in the skir The four-masted schooner Alexan characters of the Indian Tetritory, mish, the revolutionists completely der, now idle in Oakland creek, is was on the 13th elected police judge routing the federal troops, and in a also reported to be under charter to of this city and to day assumed the body 400 strong continued on their march towards the interior When Gilbert islanders is always hard up one calls him, is a big man with a last heard from they were in a few and the dealers pay him handsome | big heart, but in the performance of | hours march of the town of Coralvo, ly for his influence in getting labor- his duties as deputy United States which is situated fifty milles from ers. Death brings to light this item of biography and reminds you that it was not long ago that the first locomotive began its travels. Mr. John Porteous, who was born in Scotland in 1800, died recently in Cincinnati In early manhood Mr. Porteous was associated in business with George Stevenson, and together they constructed the Rocket, the first loc motive that was ever built, and which was run between Manchester and Liverpool, but Mr. Porteous be ing an expert worker in brass, designed and constructed the entire brass equipment of the engine. It was on the locomotive that Stephenson was later killed.
